DESCRIPTION

Experience a unique residential project in the heart of the Jalon Valley. Residencial VALL DE POP is an exclusive development of 35 plots featuring contemporary detached villas, located in an elevated area of Alcalali and offering impressive open views across the valley. The villas are built using an innovative 3D micro-concrete panel construction system, delivering exceptional thermal insulation, airtightness and structural performance, all within a conventional price range. With insulation levels between 14 and 20 cm, no thermal bridges, airtight construction and renewable energy supplied by aerothermal technology, the homes are designed to meet the stringent requirements of Passivhaus standards. While final certification is subject to testing upon completion, it is already clear that these homes will offer extremely low energy ... (enquire for further details)
